SOFTWARE DEVELOPER

I graduated with a degree in Business Administration but developed a strong interest in programming. While working in procurement, I pursued additional studies through Udemy and eventually decided to transition into software development by enrolling in a 4-month coding bootcamp. Currently, I have been working as a Full-Stack Developer at Xsurface for a year. I have developed e-commerce platforms and back-office systems using technologies such as React.js, Next.js, Express.js, MongoDB, and AWS. Now, I am looking for new opportunities to expand my experience by working on a variety of products.
